DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-3, 5-10, 12, and 14 are rejected under 35 U.S.C. 102(e) as being anticipated by U. S. Publication 2002/0057340 to Fernandez et al.

With respect to claims 1-3, 5, 8-10, and 12, Fernandez et al. disclose a system for monitoring a house comprising: a sensor component that receives data from at least one sensor located in the house (see paragraphs 0023-0025); an analysis component that analyses said data and converts said data into status information, said analysis component storing said data and status information to develop historical information (see paragraphs 0010, 0053, 0093, 0106, and 0131); a customer interface component that enables a customer to access said generated data, previous historical information, and said status information via an online customer user interface (see paragraphs 0027, 0034-0036, and 0042-0051).

As to claims 6, 7, and 14, Fernandez et al. also disclose a service component that advises a customer on said generated data (see paragraph 0096).

Art Unit: 2857

Allowable Subject Matter

4. Claims 4, 11, and 13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments filed December 3, 2003 have been fully considered but they are not persuasive.

Applicants argue that Fernandez et al. was published in 2002 and was filed in 2001, but Applicants' filing date was June 30, 2000, and therefore that Fernandez et al. is improperly applied as a reference. The Examiner disagrees with Applicants. U. S. Patent Application Publication 2002/0057340 can be properly applied as a reference, since U. S. Patent Application Publication 2002/0057340 is a division Application No. 09/045,412, filed on Mar. 19, 1998. See 35 USC § 102(e) (1) and MPEP 2136.03.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 2857

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
